BlockPass

Where Ticket Meet SocialFi

The SocialFi App for Ticket Creators and Collectors

By Teslim Ibisomi

August 2024

WHAT IS BLOCKPASS?

BlockPass is a decentralized event ticketing platform built on the Polkadot blockchain. It empowers event organizers and attendees by providing a secure, transparent, and efficient way to create, manage, and attend events. By leveraging blockchain technology, BlockPass ensures that every ticket is unique, verifiable, and transferable, offering a seamless and trustless experience for all participants.

The problem

What?

Ticket are a cultural phenomenon with immense social value.

Why?

Current ticketing platforms lack ownership.

Why now?

Users struggle to discover and participate in engaging events.

The Solution: Blockpass

TIME TO SHOW WHY OUR SERVICE IS THE ANSWER
